Flexible Recruiting Options

Direct Hire RJ-Staffing removes the potential difficulties from the hiring equation. We meticulously screen résumés and conduct in-depth candidate interviews reducing your time and effort spent filling a position. With our vast and impressive candidate database, we will find the employee you are seeking.

Temporary Placement RJ-Staffing has the solution for your immediate temporary needs. We boast the largest database of qualified local personnel in the area. Our team profiles all candidates with accuracy and extreme detail. We find the best candidate to suit your most urgent requests.

Temp-to-Hire RJ-Staffing provides this efficient staffing option, giving you the choice to convert a temp to a permanent hire. This process allows you to assess the candidate's performance and decide if they would be a suitable addition for your long-term needs.

Pay Leasing If you prefer to recruit and independently hire a candidate, we offer this cost effective supplemental option. Pay Leasing allows you to choose an employee, set the pay rate, and have the candidate placed on our payroll. This payroll alternative alleviates your exposure to certain legal and financial obligations and allows you to evaluate a potential employee with reduced monetary risk.
